## Registration & Class Schedule

### Welcome Students and Parents!

Welcome to the Releasing the Genius community. For over 30 years our mission statement, “To promote co-operation, inspire confidence, and release the genius in every child”, continues to be the foundation that binds high-performing educators, parents, and students toward one common vision – to create future leaders with the global standard of education.

Spirit of Math is **difficult**, requires a lot of **effort**, and it **works!** The academic success of our students is largely due to the hard work of students and the positive and consistent assistance by parents at home. As members of this community, both parents and students have access to a variety of tools designed by Spirit of Math to enrich the learning experience.
